- Facilities Sponsor - Hawaiian Falls has a Gold level sponsorship for their significant discount of the venue this year.

We expect about 100 attendees who are leading edge implementers in the container space. The event will be capped at 150 attendees to maintain quality as this is the first year. Please understand that this is a small, informal "unconference" style event for technical practitioners. There will be no facilities for complex booth setups, shipping and receiving, or other major industry conference-style arrangements. You will get the most mileage from your sponsor table by sending technical staff prepared to engage in the conference sessions. Sponsorships do not include speaking opportunities, though your attending staff may propose any topic as part of the openspace sessions.

You will be invoiced for your sponsorship . We will need your name, physical address, contact information, and which opportunity you wish to sponsor. Checks can be made out to "Container Days % StackEngine".
